To Whom It May Concern:

Design Collective, Inc. is pleased to provide a letter of recommendation for Indsys Computers. Indsys Computers has provided drafting services for numerous Design Collective projects and we are very pleased with their responsiveness and quick turnaround time. After a recent software upgrade, we worked with Indsys Computers to convert countless files to the new format. Their rates are reasonable, and the process was seamless and efficient. I highly recommend their services.

Sincerely,

Marie Joholske
